

The **ONLY** loop-less sling tape available for standard coat hanger hoists!

The **Silva-Safety Slot®** provides a streamlined safer sling tape

- Strong and durable.
- Simple to attach and easy to use.
- Colour coding remains the same.
- Carefully and deliberately designed to eliminate inherent loop tape sling hazards.
- Increased slot size to accommodate thicker hooks (i.e. Voyager)

Silvalea is continually looking to reduce pressures on patient and health practitioners by designing, updating and improving product safety, so healthcare practitioners can do what they do best, CARE.

- **Silva-Safety Slot®** is an innovative tape fixing without loops, designed for coat hanger hoists, removing loop hazards and providing a streamlined safer sling tape.

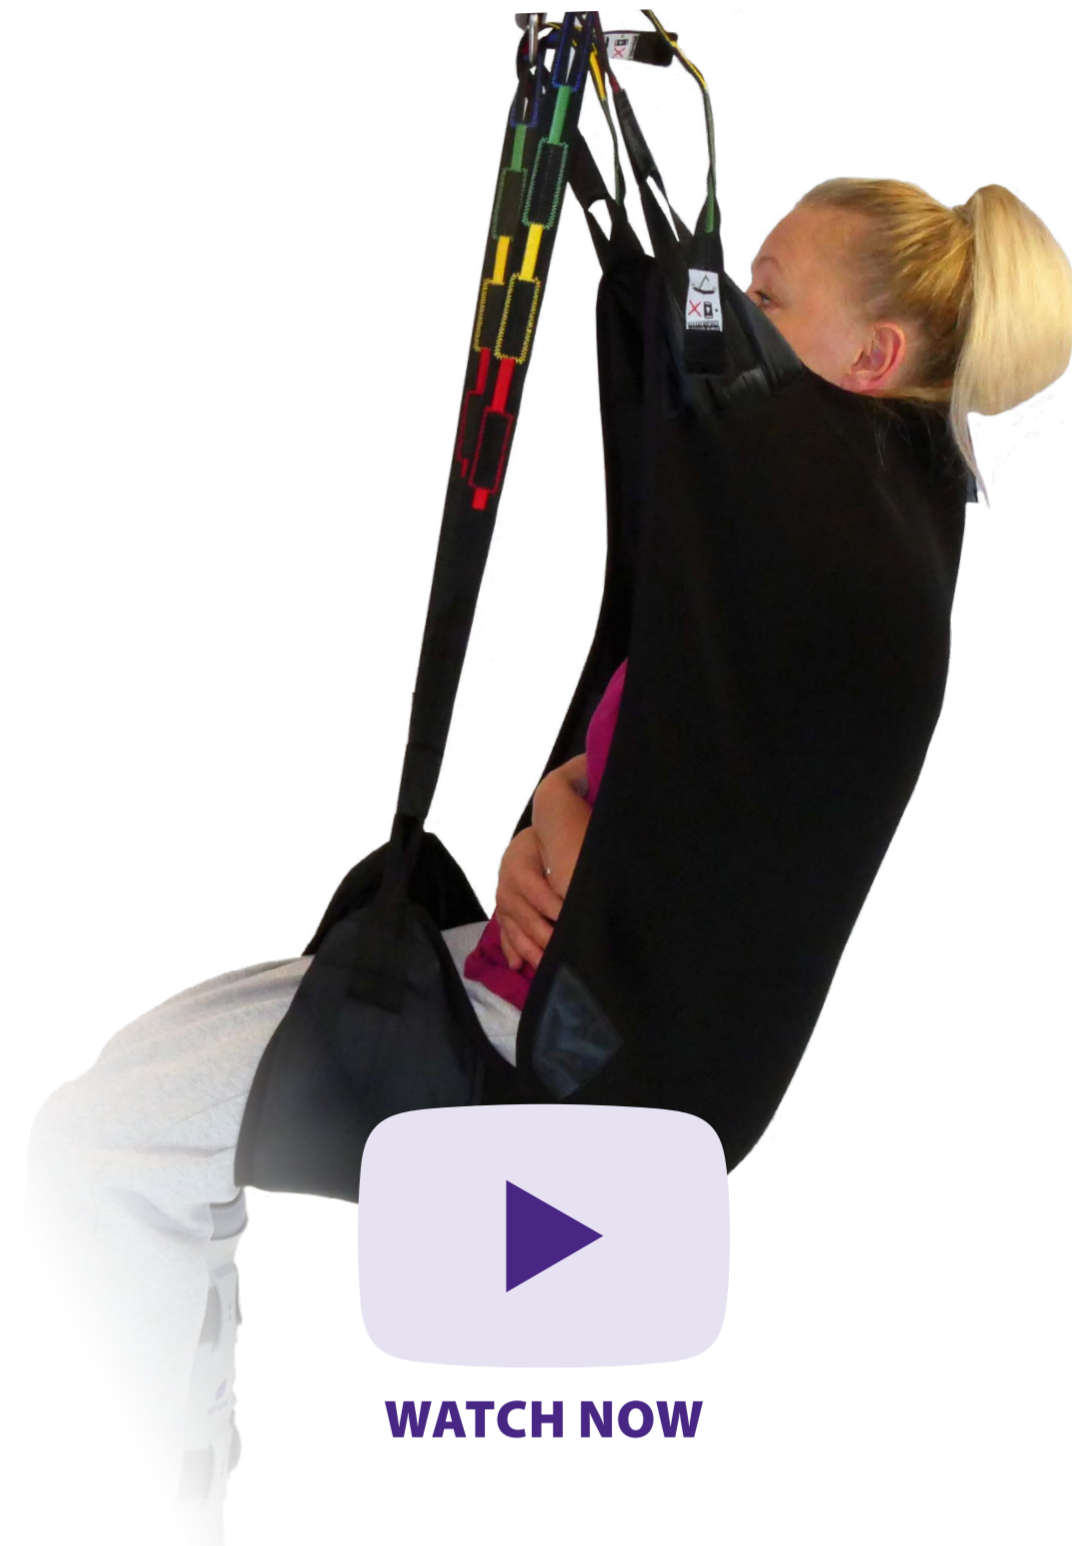

- Ergonomically designed and attached to the sling body using a new, D-ring free, twisty attachment, which naturally slides into the most optimum position during transfer, without distorting or bunching tape.

- No risk of internal loop stitch failure. The tape is a one-piece, high-strength, one-directional pull which increases product lifetime.

- Hook and loop or VELCRO® brand resistant, ensures no pulls, bobbling or thread damage during laundry.
- With less bulk, the **Silva-Safety Slot®** neatly tucks away without compromising patient comfort.

Silva-Safety Slot® eliminates the following risks caused by loops
