

Our Universal D-anserclip® fits all the major hoist models within the UK and European markets, allowing greater interchangeability between varying clip hoists.

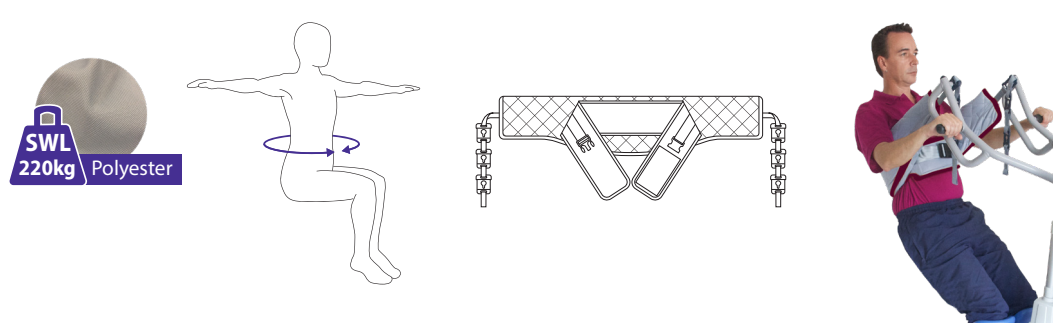

The safety “Click-on Click-off” action ensures a physical click is heard on the application of the spreader bar. All moving parts are internal to the clip ensuring greater durability during the lifetime of the patient sling.

Stand Up Sling

Code: D202(SIZE)CP

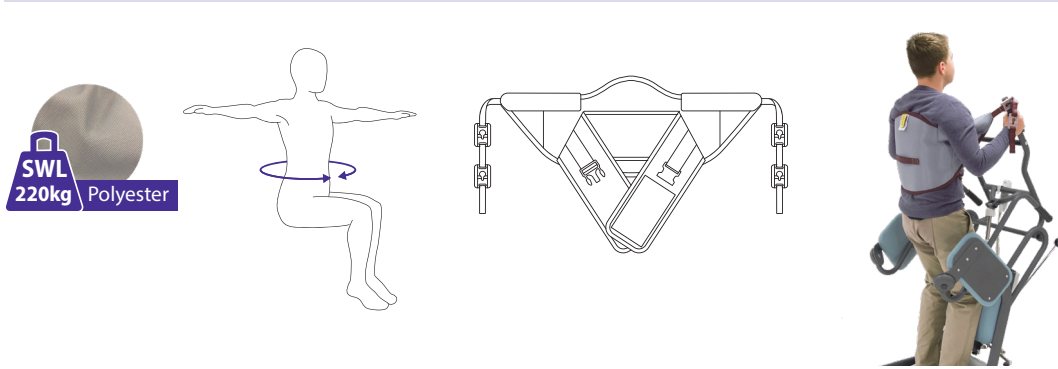

- Good general stand aid
- Fully padded
- Hook and loop fastening with clunk click buckles for patient safety
- Ideal for maintaining mobility and for building strength
- Weight bearing ability required

Rigid Stand Aid

Code: DA-AS112

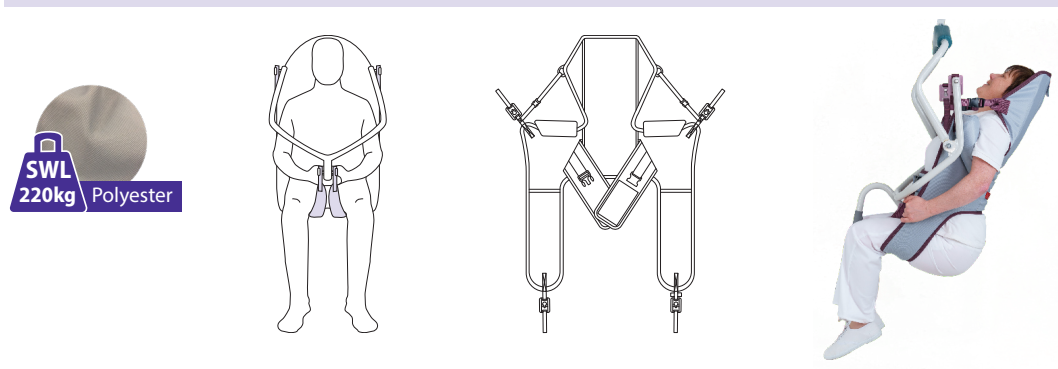

- Semi-rigid corset-style stand aid
- Deep back design providing additional support
- Clunk-click buckle and hook and loop fixing waist support for additional safety
- Suitable for maintaining mobility or rehabilitation
- Padded underarm rolls for extra comfort
- The patient should have some core stability and weight-bearing ability

High Easy Toileting
