

The Sling Specialists...

...Bringing Training to Life

PRODUCT TRAINING PROSPECTUS

2018/19

WELCOME

Since 1993 Silvalea has been an established leader within the UK and throughout the world in the design and manufacture of replacement and specialised slings used on patient hoist machines.

Our division Global Training by Silvalea offers an interactive sling awareness and training program, helping to support our valued customers and meet with the growing demand for sling training.

Operating from a purpose-built training suite, we offer a range of live and interactive services across a web-based Tele-Health conferencing system.

All services will be delivered in High Definition Quality.

This will allow you to access our training services via any device from a PC, iPad, Macbook, laptops, mobile phones, tablets and video conferencing systems.

Bringing Training to Life

WHAT YOU CAN EXPECT

All services will be delivered in High Definition Quality

- Live interactive Sling Training
- Interactive e-assessments
- Silvalea Distributor/Agent support
- Sling problem solving
- Virtual Helpline to our healthcare professionals
- Sling product updates
- Product equipment days
- Guest speakers from across the world.

Bringing Training to Life

MEET THE TEAM

OUR TRAINER

Amanda Jenkins has worked for Silvalea for almost 20 years and now leads the Global Training Services division. During her time at Silvalea she has gained vast knowledge and understanding of all types of hoisting scenarios and has dealt with many highly complex hoisting issues.

SOUTH WEST SLING ADVISOR

Alice Hendon is our Sling Advisor and Assessor covering the South West of England. Her role involves carrying out joint assessments with Occupational Therapists and prescribing the best possible sling type for clients and taking measurements for bespoke slings, when standard slings do not meet the end user's needs.

ON-LINE E-SLING ASSESSOR

Julie Robertson has worked for Silvalea for over 20 years. She started as a machinist and progressed to a senior supervisor, before joining the office staff to work on complex designs and Research & Development. She has gained vast knowledge on conditions and with her combined manufacturing and design knowledge she is ideally suited to give technical advice and undertake on line e-assessments.

IT MANAGER

John Schofield as our IT Manager is responsible for the IT infrastructure, services and support that our team depend on. IT is a key element of our Global Training experience and John as our technical expert will ensure that your link ups with us are as smooth as possible. John is also our Data Protection Officer and recently worked to get Silvalea GDPR compliant. Having 17 years' experience in the IT industry in the aviation, defence and government sectors, John ensures that our networks and communications are safe and secure.

TRAINING SESSIONS EXPLAINED

STANDARD SLING SOLUTIONS

- Looking at 6 standard sling shapes and understanding their uses
- Looking at how the differences in the leg pick up positions affects the support given
- Standard fabric options and additions available i.e. head supports/hip tapes/waist or chest support. Understanding hoist compatibility

TOILETING SLING SOLUTIONS

- Understanding the suitability of toileting slings
- Looking at a variety of slings offering access for toileting from compliant users to those with more complex needs

AMPUTEE SLING SOLUTIONS

- Understanding sling options available for varying length amputations from single below knee to higher bi-lateral amputations

HARNESSES FOR REHABILITATION

- Looking at a variety of harnesses to assist with standing/sitting
- Looking at a variety of standard slings for a variety of standard hoists

IN-SITU SLING SOLUTIONS

- Understanding what makes a sling suitable for in-situ use for both standard and moulded seating systems
- Looking at fabric & style options available

MEASURING FOR A CUSTOM-MADE SLING

- Understanding how to measure for a sling
- What to consider when measuring and assessing an end-user for a specific sling using the Silvalea Custom-made form
- Why different sling shapes and styles require different measurements

PAEDIATRIC SLING SOLUTIONS

- Looking at a range of popular Silvalea paediatric sling solutions
- Including a sling to encourage an anxious child
- Slings for challenging and 'active' scenarios
- Harnesses to assist with standing/walking
